Importance: High

Hi Susan - per below Mr. Tinglehoff (sp) reached out to me today. He was wanting to share information he had on a proposal for managing the waste water. I informed him that NDEE was the lead in any decisions regarding his questions. He did share an idea for a BMP and passed it along via e-mail (attached). I think it would be good if we could touch base. I don't know everyone's calendar but I am free all tomorrow morning with the exception of a 10 o'clock. We can also look at other times as well.

Let me know what you think.

Thanks.

Jamie

Jamie,

Thank you very much for speaking with me today. It was greatly appreciated. I have attached our BMPs. The chemical residues and monitoring section starts on page 7 (section 7). If you have any questions, please let me know.

Scott
